Your ideas and evaluations:

27) knowledge

- we have a clue what is going on in a device, others usually don't

Evaluation: Average 7.8333335, 47 point(s), 6 rating(s)

28) Apple

- openness drives new developments -- lazyness is stagnation and boring

Evaluation: Average 7.6666665, 46 point(s), 6 rating(s)

31)

- trying to look beyond personal needs and understand complex systems

Evaluation: Average 6.6, 33 point(s), 5 rating(s)

22) History

- using experience to make hopefully educated decisions

Evaluation: Average 6.4, 32 point(s), 5 rating(s)

15) Apple

- religious believings

Evaluation: Average 6.3333335, 38 point(s), 6 rating(s)

32) quarzsand

- devides people into two groups: Beach boys. Silicon manufacturers

Evaluation: Average 6.25, 25 point(s), 4 rating(s)

17) Closed Source

- is the force of all excellent paid support. No one wants to know the internals.

Evaluation: Average 6.0, 30 point(s), 5 rating(s)

19) Apple

- likes golden cage
hates responsibility in freedom

Evaluation: Average 5.8, 29 point(s), 5 rating(s)

20)

- no differences in most areas

Evaluation: Average 5.3333335, 32 point(s), 6 rating(s)

18) Apple

- Users use closed software and hardware

Evaluation: Average 4.0, 20 point(s), 5 rating(s)

29) bicycle

- require own motion and are therefore uncool. Except they have an electrical engine and people may claim of achieving movement on their own

Evaluation: Average 3.75, 15 point(s), 4 rating(s)

30)

- how can it be ?

Evaluation: Average 0.0, 0 point(s), 2 rating(s)
